

# True Revelation

Count Raven

A new time has come, a new time is here  
The one from the pit has risen and soon he'll make us fear  
This is the time, yeah this is the time, now listen to this song  
Gonna tell you a little story foretold by the prophet John

It started after the war when Israel got their land  
It was the new beginning for today's modern man  
Foretold two thousand years ago, now we know it's real  
They've returned to their land on silverbirds with wings of steel

The year is 1989, the news shocked us today  
The Berlin wall has fallen as many germans prayed  
Revolution in the eastern block, we can't believe our eyes  
It's not the usual situation of the average media lies

True revelation that comes to every nation  
True revelation that comes to every nation

The future that is coming up holds new hope for our world  
All will say "peace now" and weeping won't be heard  
Then a young man comes out of Egypt, he'll unite the Middle-East  
A fair politician, our new holy priest

The world will be amazed; "what an incredible man!"  
He'll confirm the alliance, all religions will shake hands  
There will be one economy and we will all be free  
No more creditcards, that he can guarantee

The system that is coming up will really end this hell  
A mark on hand or forehead or you can't buy or sell

True revelation that comes to every nation  
A new manifestation, the chosen aggrivation

This is the future that you look into  
And there is nothing that you can do  
His next seven years will really be something else, you know  
People will be stunned and say: "way to go!"

Now all is good and everything is fine  
At last we will have some peace of mind  
Relax and take it easy in your seats  
And count in the number of the Beast

True revelation that comes to every nation  
It'll shake the foundation, in fact the whole creation

Hear me now, all people, this is what I say:  
If your heart loves the lord than you will be o.k.  
In this time of knowledge and love for our world  
For mother earth we all fight, our voices can be heard

The world will be a better place, east and west shaking hands  
In front of a worldwide government we all have to stand  
Yes, soon we'll have a fair world and things look better for you  
Then along comes the one - you know who

True revelation - the final tribulation  
True revelation - Gods Manifestation
