## Courage My Love

I don't believe it  
Does she dance in the dark like I do?  
Should tell her to beat it  
If she's pouring some sugar on you

And I know some girls just wanna have fun  
But now you've found a real one  
And I'm never gonna give you up, no  
Some love can be a battlefield  
But that's not how it oughta feel  
You could see if you'd just take me on

Canned heat when we move  
We're smooth criminals  
Let's get physical  
We're in heaven when it's just me and you  
'Cause that other girl makes you miserable  
I'm better than the original

(Original)  
Yeah I'm better than the original  
(Original)  
Yeah I'm better than the original

Do you really wanna hurt me?  
Looking her way with your hungry eyes  
'Cause only the lonely wanna dance with somebody all night  
Every night

And so it's girls just wanna have fun  
But now you've found a real one  
And they're never gonna give you up, no

Canned heat when we move  
We're smooth criminals  
Let's get physical  
We're in heaven when it's just me and you  
'Cause that other girl makes you miserable  
I'm better than the original

(Original)  
Yeah I'm better than the original  
(Original)  
Yeah I'm better than the original

Canned heat when we move  
We're smooth criminals  
Let's get physical  
We're in heaven when it's just me and you  
'Cause that other girl makes you miserable  
But I'm better than the original

(Original)  
I'm better than the original  
(Original)  
Better than the original  
Yeah, I'm better than the original
