

## A Common Disaster

Cowboy Junkies

A candle burning for everything I've ever wanted  
A tattoo burned for everything I've ever wanted and lost  
I had a long list of names that I kept in my back pocket  
But I've cut it down to one and your name's at the top

Won't you share a common disaster?  
Share with me a common disaster  
A common disaster

I found myself a friend but he's crooked as a stick in water  
So now I'm writing fairy tales to catch the spirit of revenge  
He's got a plan to steal my little sister  
But I'm not too concerned 'cause I will get him in the end

Won't you share a common disaster?  
Share with me a common disaster  
A common disaster

Going to find me someone to share  
A common disaster

Run away with me from a life so cramped and dull  
Not worry too much about the happily-ever-after  
And just keep the Caddy moving  
Till we're well beyond that hill

Won't you share a common disaster?  
Share with me a common disaster  
A common disaster
