

Don't bring us down

Cracker

God gave you life
So get out of mine
And take your sorry ass
Back to Florida

You're not welcome here
Ain't it perfectly clear
Take your sorry ass
Back to Florida

You bring us down
Don't come around
You bring us down
You bring us down

You live a charmed life
But nothing seems right to you
Roses and wine
Thorns and vinegar

Your only delight
Is other's demise
So take your sorry ass
Back to Florida
