

How Can I Live Without You

Cracker

You can still come and bring me coffee in the morning
You can still come and make me chicken fried steak
Or you can live your life with whomever you please to
As long as someone takes good care of me
You know I don't mind

How can I live without you
If it means I gotta get a job
How can I live without you
If it means I gotta get a job

You can still come and bring me those fancy pastries
You can still come and crawl into my bed
You can live your life with whomever you please to
As long as someone takes good care of me
You know I don't mind

How can I live without you
If it means I gotta get a job
How can I live without you
If it means I gotta get a job

Yeah!

How can I live without you
If it means I gotta get a job
How can I live without you
If it means I gotta get a job

(How can) How can I live without you
If it means I gotta get a job
(How can) How can I live without you
If it means I gotta get a job
