

# Night Falls

Cracker

Hm-hmhm-hm-hm  
Do-dodo-do-do  
Whoohooohoo

Lay me down  
And pull the arrows out  
Let night fall again

So love is everywhere  
But you're not with me dear  
Let night fall again

I saw you there  
I saw you waiting on that boulevard  
For great parades  
And motorcades  
They never pass

I see you there  
My heart cannot contain its misery  
It comes right out  
Of my mouth  
Like butterflies

The car she used to drive  
I thought it passed me by  
Let night fall again

Saw you cross Governor's Square  
A chill was in the air  
Let night fall again

I saw you there  
While I was dancing with some stranger  
I'd taken comfort in  
You had the same  
You understand

We're in the hall  
My heart cannot contain its misery  
The mirror ball  
Spits broken light  
Upon the wall

Hm-hm-hm-hm-hm  
Hm-hm-hm-hm-hm  
Whoo-hoo-hoo

Hm-hm-hm-hm-hm  
Hm-hm-hm-hm-hm  
Whoo-hoo-hoo

I saw you there  
I saw you waiting on that boulevard  
For great parades  
And motorcades  
They never pass

I see you there  
My heart cannot contain its misery  
It comes right out  
Of my mouth  
Like butterflies

Hm-hm-hm-hm-hm  
Hm-hm-hm-hm-hm  
Whoo-hoo-hoo

Hm-hm-hm-hm-hm  
Da-da-da-da-da  
Whoo-hoo-hoo  
Whoo-hoo-hoo  
Whoo-hoo-hoo
