Craig David

Would you like a drink with me?
(If you don't mind, can I talk to you if it's all right)
I want your body close to mine
(All night, while we're dancing in the moonlight)
We could spend the night in ecstasy
(Kissing, touching, caressing)
You know that you don't have to leave (Tonight)
Saying why didn't I go home with you tonight.

In fresh from out of town
Just breezed in so I thought I'd take a look around
And find a party where the vibe is right
I'm talking maybe meet a honey take her home tonight,
So shades on, top's off the whip
Taking in the sights as I cruise the strip
As I pull up to a red light
I see the pretty little shorty in my headlights.

This girl looked half black yet half oriental
Man this chick's got class & style
I'd like to ask her for her credentials
Name, address, numbers to dial
She plays tuff when deep down she's gentle
Ain't that hard to read the signs
The girl bangs like dre instrumentals
Well here's an acappella of mine

Scene two all up in the club
Got my game tight about to tear it up
Could be a night that I won't forget
Boy I'm lookin for a honey & I'm a confident
I was... dancing but I had to stop
When I clocked this fly girl wearing a halter top
She had her hair done nails right
This señorita had a booty that was so tight

She was a... hot girl looked continental
Damn, her body looked so fine
The way she spoke I saw her potential
If looks could kill then she'd do time
I don't claim to speak perfect spanish
But I do know a few lines
This female's slicker than your average
And I gotta make her mine

So, quieres beber conmigo?
(If you don't mind, can I talk to you, if it's all right)
Quiero sentir tu cuerpo
(All night while we're dancing in the moonlight)
Haz el amor conmigo
(Kissing, touching, caressing)
Ya no me dejes solo (tonight)
Saying why didn't I go home with you...

Tonight I'm from the distance admiring
Girl you're looking so vibrant
And I dig the way you move your body

Let's get out of this party
Maybe we can get naughty
Say bye, bye girlfriends
'Cos just in a minute we'll be gone if we're N-sync
(Can we dance?)

Would you like a drink and some loving?
But leave your husband at home
Unless he want a bump on the dome
Come along, rub alongside me
Put your phone on silence, just breath
What you're doing is righth, what I'm doing is wrong
Only time I do right is when I'm doing a song
So, expect your ex to exit the area
Exterior vex, perplex by the sex
What you're drinking?
Drinks on me, find me on drink & drink on me
You can ride next to me, girl it's ecstasy
Here's something for your ex to see
It's messed up how I slide up your tight with my right hand
You wanna ride all night then I can
Don't be shy of just one, one night stand, now let's go!!!

[Chorus]
