

# Enough Of Your Lovin'

Crash The System

I thought my life was ordinary  
There you were  
An epiphany of beauty  
Love had come my way  
You give me love  
You give me understanding  
Destiny has brought  
Our souls together  
Two ships  
Lost at sea

We've been pushed around  
Been the talk of the town  
And we deserve to make it  
'Cause no one else comes  
Shining through like you

I can't get enough of your lovin'  
I can't get enough of your touch  
There's no one else who can  
Move me like you do girl  
I can't get enough

I can't get enough of your lovin'  
I can't get enough of your touch  
There's no one else who can  
Move me like you do girl  
I can't get enough

My luck has finally turned now  
I learned my lesson  
I had been burned  
But love has come my way

We've been pushed around  
Been the talk of the town  
And we deserve to make it

I know we belong together  
We share secrets honestly  
From now eternally

And I can't get enough  
Yes I can't get enough  
I can't get enough of your love

I know we belong together  
We share secrets honestly  
From now eternally

And I can't get enough  
Yes I can't get enough  
I can't get enough of your love
