

In the Maze

Crashdiet

Same old story like the last time
We couldn't find the reason or rhyme
Lyin' alone
Here in my stonecold soberness
I feel the emptiness
I know I'm not that innocent
Maybe I'm lost in decadence
Turning old stones won't let us grow

We're in the maze
Tryin' to find each other
And the love that we lost
To the fingers we crossed
Along the way
We're in the maze
It's just around the corner
It's the love that we lost
To the fingers we crossed
Along the way
Down in the maze

Tryin' to find a final answer
Through my love is a disaster
Feeling confused
Feeling abused
Don't wanna lose the things we've been through
Screaming out all this pain inside
Although I know I fucked it up
The truth is unsaid
Nothing remains

We're in the maze
Tryin' to find each other
And the love that we lost
To the fingers we crossed
Along the way
We're in the maze
It's just around the corner
It's the love that we lost
To the fingers we crossed
Along the way
Down in the maze

Now that I'm on another path
I cannot release me from this wrath
The image it fades
But our love will remain

We're in the maze
Maybe we'll find each other
And the love that we lost
To the fingers we crossed
Along the way
We're in the maze
It's just around the corner
In my illusion I'm yours
In my future you're lost

There is no way
Out of the maze
