

# Into the Wild

Crashdiet

Take me into the wild

I feel the temperature rise  
There's nothing I can do  
I'm feeling claustrophobic  
I regurgitate when  
I watch the news  
It all makes you wanna

Dehumanize the earth  
Just kill us one by one  
You're not worth a damn  
'Cause we're all gonna die, anyway

Killing the planet  
Raping its sea  
What's hard for me to grasp  
As the corporates greed  
If I could change it  
I'd probably do  
'Cause the heart of the jungle  
Is screaming for you

Take me into the wild  
It's time I answer the call  
Take me into the wild  
Nature's calling  
We're living on a glass wrecking ball  
If we're not gonna stop it will hit the wall  
Take me into the wild  
Into the wild

I'm like a dog in a cage  
Somebody throw me a bone  
I bark, but no one understands  
The critical mass don't even care  
Don't even care

We sit on our asses  
And only complain  
While the greedy bastards  
Poison our brains  
It's a revelation  
We have to reach now  
Tomorrow's too late  
'Cause tomorrow we die

Take me into the wild  
It's time I answer the call  
Take me into the wild  
Nature's calling  
We're living on a glass wrecking ball  
If we're not gonna stop it will hit the wall  
Take me into the wild  
Into the wild

We should learn from our past

Ignore all the wealth  
What about the children  
What about their health  
Just 'cause we're free  
Doesn't mean we're not doomed  
It's time that we heal  
Mother earth's wound

Take me into the wild  
Take me into the wild  
Take me into the wild  
Nature's dying  
We're living on a glass wrecking ball  
If we're not gonna stop it will hit the wall  
Take me into the wild  
Into the wild

Into the wild  
Into the wild
