

## It's A Miracle

Crashdiet

My weak resistance, of you're flower  
got me infected, 'cos I was to blind to see  
everyone told me, but did I listen  
no I was sick'n tired of the same reply from thee

You lead the game, i followed...  
You were the bait, I swallowed...

It's a miracle you walk the earth alone  
it's a miracle I stand beside you  
you're like a plague in awide'n open show  
you pass it on like I need it the most

I smelled you're rose'n caressed you're petals  
never bothered by the thorns that made me bleed  
I longed to feel you so deep inside me  
but now I'm stuck with you forever without remedy

You lead the game, I followed...  
You were the bait, I swallowed...

It's a miracle you walk the earth alone  
It's a miracle I stand beside you  
You're like a plague in awide'n open show  
You pass it on like I need it the most

You knew my pain...  
You lead the game...  
and I followed yeah I followed  
Your lies, your play, you're all the same to me

It's a miracle you walk the earth alone  
it's a miracle I stand beside you  
You're like a plague in awide'n open show  
You pass it on like I need it the most

2x

It's a miracle you walk the earth alone  
it's a miracle I stand beside you  
You're like a plague in awide'n open show  
You cut me off when I needed you most
