

Parasite

Crashdiet

Turn around now
'Cause you're a parasite

You've sucked the last drop of blood
You took it all, even that wasn't enough
Misled and misunderstood
Your fake smile was too good to be true

Under my skin you plant the evil seed
I was the host for your relentless greed
You survive preying on the innocent
No more standing next to me

You are your own worst enemy
You had your hooks inside of me
You've found a brand-new enemy
Doesn't take a fool to see
You're a parasite

Turn around now
'Cause you're a parasite
You took it all
You took it all from me
Turn around now
'Cause you're a parasite
You took your last bite
No more feeding off me
Feeding off me

You're a parasite

Draining my life
But don't mistake
Your cockroach shell is beginning to break
Infesting my mind with empty promises
Time to repel
Time to resist

You are your own worst enemy
You had your hooks inside of me
You've found a brand-new enemy
Doesn't take a fool to see
You're a parasite

Turn around now
'Cause you're a parasite
You took it all
You took it all from me
Turn around now
'Cause you're a parasite
You took your last bite
No more feeding off me
Feeding off me

You're a parasite

Turn around now

'Cause you're a parasite
Feeding off me
Turn around now
'Cause you're a parasite

Turn around now
'Cause you're a parasite
You took it all
You took it all from me
Turn around now
'Cause you're a parasite
You took your last bite
No more feeding off me
Feeding off me

Turn around now
'Cause you're a parasite
I'll be watching every move you make
Turn around now
'Cause you're a parasite
I'll be watching every step you take
You're a parasite
