

# We Are the Legion

Crashdiet

The time has come  
And we're gearing up for fight  
Through times of darkness  
We suddenly see the light  
Armed with the attitude  
Of kickin' down the doors  
Our fine line between  
hooligans and whores  
We keep on moving on and  
Ain't gonna stop  
This rolling madness takes us  
All the way to the top  
We are the legion  
you despise  
Until the world comes  
Crashing down  
We are the legion  
Of our time  
So let us stand our battleground  
A storm of decadence  
Is blowing through your brain  
You can't deny it as  
A constant source of pain  
The operation of the  
War inside ya head  
The final strike  
Strike  
Wakes the living death  
They keep on moving on us  
From every side  
We'll fight this fight together  
Death or alive  
We are the legion  
you despise  
Until the world comes  
Crashing down  
We are the legion  
Of our time  
So let us stand our battleground  
Adrenaline rush  
From a little too much  
Intoxication gives you what you need  
We've got the wicked lust  
To make a crack in your crust  
We can see right  
Through your greed  
Through your greed  
And love will set us free  
Welcome to our battlefield  
We are the legion  
you despise  
Until the world comes  
Crashing down  
We are the legion  
Of our time  
So let us stand our battleground  
We keep on moving on and

Ain't gonna stop  
Ain't gonna stop  
This rolling madness takes us  
All the way to the top  
Ain't gonna stop
