

Lights Out

Creature Feature

Where have all these hungry beasts crawl from?
Have they been dormant all along?
Waiting for the chance to claim the world?
How did everything go so wrong?

By day they hide and cower in the shadows
Waiting for the darkness to come
By night they shamble through the dark empty world
Yearning for a single drop of blood

Dont wander out in the streets after dark
They only come out at night
If you get caught you go straight for the heart
They only come out at night

Death is waiting for you to drop your guard
How much more horror can you face?
The final hope against the hoards of the dead
Last alive among the lifeless race

Dont wander out in the streets after dark
They only come out at night
If you get caught you go straight for the heart
They only come out at night

Sunsets keep those fire burning
For its lights out
Keep those barrels loaded with bullets
Goodbye
Keep those senses sharpened
Goodnight
You might just live to see another day

Dont wander out in the streets after dark
They only come out at night
If you get caught you go straight for the heart
They only come out at night
