

Dance On Fire

Crimson Glory

Alright, hold tight
Gonna take you for a ride
Inside the endless depths of my love
Inside outside
Through the doorways of your mind
Into the shadows of my soul

Ooh, something in the way you move that moves me
Ooh, something in the way you sway
The way you make love to me

Come dance with me
Feel my desire
I'll set you free
Take you higher and higher

Burn with me I'm gonna make you dance on fire

Dance - dance on fire
Dance - come and dance with me

Alright, hold tight
Don't you bring me down tonight
I'm flying high on your love
Inside, outside
Thru the windows of your eyes
Into the colors of your soul

Ooh, something in the way you move that moves me
Ooh, something in the way you glide
The way you slide right thru me

Come burn with me
Feel my desire
I'll set you free
Make you dance on fire

Feel the flames they'll take you higher and higher

Dance - dance on fire
Dance - come and dance with me

Blue-eyed angel with a devil's smile
Gonna burn you, gonna drive you wild

Dance - dance on fire
Dance - come and dance with me

Ooh, something in the way you move that moves me
Ooh, something in the way you sway
The way you make love to me

Come burn with me
Feel my desire
I'll set you free
Make you dance on fire

Feel the flames I'm gonna make you dance on fire

Burn with me I'll make you dance on fire, fire
And come on, burn with me
No, make me dance again, yeah

Dance on fire, on fire, on fire
Dance on fire
