

# New World Machine

Crimson Glory

I feel I'm becoming mechanized

I feel I'm becoming mechanized  
World spinning before me made computerized

Separate from soul  
Giving up control  
Kills the man in me  
In electric dreams...

From here to eternity  
From now to infinity  
Destroyed...we watch you bleed  
The New World Machine!!

All we are, all we need  
Has become the New World Machine  
All we are, all we need  
Has become the New World Machine

Now it's time to take another step  
Neuro-spike insertion cracks the chest

Input data speed  
The memory exceeds  
The emptiness in me  
Fills an endless sea...

From here to eternity  
From now to infinity  
Destroyed...we watch you bleed  
The New World Machine!!

All we are, all we need  
Has become the New World Machine  
All we are, all we need  
Has become the New World Machine

All we are, all we need  
All we are, all we need  
The New World Machine

All we are, all we need - Machine  
Has become the New World Machine  
All we are, all we need - Machine  
Has become the New World Machine

From here to eternity  
From now to infinity  
Destroyed...we watch you bleed  
The New World Machine!!

Machine!!
