

Prove You Wrong

Crossfade

Somedays are worse than others
Somedays I can not feel a thing
Someday I might just prove you wrong
Something just might go my way
Today I've got something to prove to you
All these things I never do for you
Is making you angrier every day
Pushing me farther away

You make me a mess
I can't keep it together
Somehow, someday I'm gonna prove you wrong
I'm gonna prove you wrong

Someday I might stay sober
Figure out where I went wrong
Make some sense of what's left of me
Make a go of this alone
I've got nothing left for you
So sick of the the things you do
Turn your back on me everyday
You're pushing me farther away

You make me a mess
I can't keep it together
Somehow, someday I'm gonna prove you wrong
I'm gonna prove you wrong

You make me a mess
I can't keep it together
I fall away
I'm gonna prove you wrong
