

Brave New Dawn

Cruadalach

It's on!
They are beating down what they can find
Disrespect to all the world around
But changing world to better place
Can't be made through violence
So let's make love
Don't break things down
Let's do it better way than we are doing now

So let's make love, don't brake things down
let's do It better way than we're doing now

No hate, no war, no compromise!

Don't break it down
Let's change it baby!
We are not done!
Let's make world better place one more time!

We ain't your enemies now, hold on your guns
Don't break it down break it down

Don't break it down
Let's change it baby!
We are not done!
Let's start new day with the brave new dawn!
Let's start it baby
It can be done
Let's make world better place one more time!

Cause we're all for one, the one
And the one's for all of us
And we'll never fall down, deep
With the start of a brave new dawn

We ain't your enemies now hold your fucking guns
Wars are for centuries I want us to end it now!
Let's end it baby!
We are not done!
We need to start new day with brave dawn!
Let's change it baby!
Invite the sun!
Let's make world better place one more time!

We ain't your enemies now, hold on your guns
Don't break it down break it down

Don't break it down
Let's change it baby!
We are not done!
Let's start new day with the brave new dawn!
Let's start it baby
It can be done
Let's make world better place one more time!
