

# Black Oath of Death

Cruel Force

Our steel is blessed  
With the spell of the dead  
Seeking for the victory  
Of hells revenge

Guardians of the night  
Light the sky  
And drink the blood  
Raise the sword  
And march with the horde

Black oath of death

Fire and smoke  
The smell of death  
Rotten souls  
All the enemies of the oath  
Must die

Kill the women  
Rape their bodies  
Fight with pride  
Let the sound of steel  
Rule the night

Forging the steel in lord Satan's name  
While drinking the blood of the sacrificed ones  
Lighting the crucifix with blasphemous lust  
Kneel in front of the dark throne of rust
