

Call Me Crazy

Crush 40

Here we are, all alone
Something weighs heavy in your tone
Where'd you go, outer space?
Talking right to ya but there's not a trace
What'd you say? What'd you mean?
Care to break the wall that's in-between?

Let me out, let me free
Get away from me
Let it go, you don't know everything

Call me crazy, it won't mean a thing
I had enough of, just enough of you
And if you call me crazy, I'm through with you
There's an ocean full of you that swims around me

I take my time, it's all right
I try to bounce back each and every night
It's not the worst I've been through
Wish you'd get it in your head that I'm sick of you
Stand back, away
I don't care what you do or what you say

Let me out, let me free
Get away from me
Let it go, you don't know everything

Call me crazy, it won't mean a thing
I had enough of, just enough of you
And if you call me crazy, I'm through with you
There's an ocean full of you that swims around me

Call me crazy, it won't mean a thing
I had enough of, just enough of you
And if you call me crazy, I'm through with you
There's an ocean full of you
There's an ocean full of you
There's an ocean full of you

Call me crazy
Ha ha ha... Go away
