

# Look in My Eyes

Crystal Ball

You stand there at the door last night  
You looked at me, I knew  
You kept our secret inside

Every time you're close to me  
It was like in my dreams  
I thought our love was a fantasy

"Catch the dreams and don't give up tonight"  
"I touch your soul"  
Deep inside I hear your words

Look in my eyes  
You'll see there's no reason  
For any doubts nor any lies

The time has come and you are gone  
I miss the promises  
And love from the shining sun

And first you said just trust in me  
And now you've changed your mind and say  
That it's better to be free

"Forget the dreams and walk away from me"  
"And don't look back"  
But deep inside I hear your words

Look in my eyes  
You'll see there's no reason  
For any doubts nor any lies

Look in my eyes  
But now it's too late  
I cry another thousand tears

All the nights I spent with you  
Can't forget the time we shared  
And the pain is hard to bear
