

To Freedom and Progress

Crystal Ball

Since creation and on through the years
Men's salvation has seen many tears
Forced to hide and taunted for a thought
Constantly afraid we could be caught
Just for a thought

Praised His banner with our swords held high
For His honour were prepared to die
Hailed His glory sanctified His name
Re-wrote the story by shifting the blame

Just let it go forget control
And give some downtime to your soul
Togetherness that spirit cannot die
Just take a rest and you'll be blessed
Hail to freedom and progress
Life holds so much more than meets the eye

We're not alone

Rivals killed immortalised and gone
Poor excuses for the deeds they'd done
Forced submission paved the only way
Flawed transition a new way to pray
