

# Vengeance Descending

Crystal Eyes

I've found a way back to my home at last  
A way that has been locked and cloaked until now  
It's time to take care of my programmed past,  
find the answers, and then finally fulfil my vow

I've learned from my ship's secret files  
that they planned my unwanted exile!  
I knew too much about their insane plan  
I had to leave, from the Earth I was banned

For years I have travelled in the dark and endless space,  
cast out from the human race  
For vengeance I'm yearning now as I'm returning  
to make my wrongdoers pay for my lonely days  
Revenge!

Imperfect data I got from below,  
but I've learned enough from my unknown friend  
They sent me away so their empire could grow  
On Terra my vengeance shall descend

I'm burning of hatred and rage,  
for their lies and my time lost in space  
I'll end the Interstellar War,  
and disclose their plans of the human race

Revenge will be mine!
