I'm not gonna push myself  
It's been a while sorry for the wait  
We back to holla, we still goin, can't make us wait  
Go pop-pa-pop-pop even if I feel it  
Say what-wa-what-what ! Today's eye is on a  
Extraordinary man, taking a nap during free time hey  
His sexy side is funky and extraordinary, to 1000  
Rapid motion on and off I'm rollin'  
Yo dust cloth for a down and dirty na style  
Misdemeanor  
STOP ! The hatin' and the negativity  
And slow down...  
He's as good as gone ... So  
STOP ! Don't understand why they follow me  
Here we go NOW ! (Oh my !) Beats be full

Today still, again I'm here alone  
Still no one calls me  
But tonight I want to go out  
To do that, take unpleasantness and leave it behind  
Girl's in the front raise your hands  
Don't let worries go around  
Cool guy's in the back raise your voice and make noise until morning  
Tonight's party time, baby can't you see

I've come to enjoy  
It's OK to forget about tomorrow

\*\* repeat
