

# Rock Until We Fall

Crystal Tears

Fists are aiming high  
Heads are banging wild  
Heavy riffs fill the air

Jeans and leather bound  
Slaves to metal sound  
For the few for those who dare

It's alright, it's alright  
Music loud play it hard  
Grab the guitars, start play the drums, come hold your bass, warm up your voice  
Come on let's sing our song

Rock until we fall  
Don't compromise never succumb follow your heart and soul

Metal in our veins  
Driving us insane  
Makes us feel that we're alive

Scream and shout it out  
Rocking makes you proud  
Trust in us we rule the night

It's alright, it's alright...

Rock until we fall...

Yeah... follow your heart... your heart and soul...

Oh... rock until we fall...

Faults we make just remain the same  
Can't you realise it is rock who's to blame  
Life's a game that we have to play  
Can't you realise rock before we bleed
