

Love I Found

Crystal Waters

Don't send me no doctor
With all those pills and all those frills
Don't send me no magic man
He gave me the chills can't be real
And I, I don't care what you people think
The kinda man I need
And I, I don't care what he's done before
So go on 'cause

Love, love I found, I found in you
(People don't you hear me say)
Love, love so strong, got to be true
(People don't you hear me)

Don't send me no rich man
Diamond rings material things
Don't send me a wise man
To try and change me that I don't need
Hey I'm holding on to what I feel is mighty real
And I know it ain't been easy but he knows
How to please me • Sing it

Love, love I found, I found in you
(People don't you hear me say)
Love, love so strong, got to be true
(People don't you hear me)

Count on me my baby
'Cause I believe your love
And if you leave I can't go...
You've got me on bended knee

Tell me lately it's been crazy here
(It's just) another day we're gonna make it through
You've got to know you're my heart
You've got a piece of my soul
You've got to know I'm in love

Love, love I found, I found in you
(People don't you hear me say)
Love, love so strong, got to be true
(People don't you hear me)
Love, love I found, I found in you
(People don't you hear me say)
Love, love so strong, got to be true
Love...
Love, love so strong, got to be true

Count on me my baby
'Cause I believe your love
And if you leave I can't go...
You've got me on bended knee

Love, love I found, I found in you
(People don't you hear me say)
Love, love so strong, got to be true
(People don't you hear me)

I found, I found, love...

Love, love I found, I found in you
(People don't you hear me say)
Love, love so strong, got to be true
(People don't you hear me)

Love, love I found, I found in you
Love... • Love...
