

Side by Side

Cuff the Duke

Don't feel it's that you think about
I will help you if you figure out
I'll keep it close, I'll keep it close for you
And now that I'm older, will we ever lose?

So go ahead, it's okay to fall
Run along baby it's just you and I
I'll never judge or compromise
Look around baby it's just you and I. side by side

We found the answers here for heaven's sake
We step through the entrance, no one stares
I feel the heat, I feel the light's embrace
Keep moving at a slow pace

So go ahead, it's okay to fall
Run along baby it's just you and I
I'll never judge or compromise
Look around baby it's just you and I. side by side

So go ahead, it's okay to fall
Run along baby it's just you and I
I'll never judge or compromise
Look around baby it's just you and I

I'll keep it close, I'll keep it close for you
And now that I'm older, will we ever lose?
