

# Big Fat Smile

Culcha Candela

I want to get high  
But I'm so low  
Only one thing left to do

I'm feeling low but I want to feel high  
All my gold I would give for a smile  
I don't know what I'm missing 'cause I got your kissing  
And a house full of joy and love  
Want to scream all I hear is a sigh  
Silence killing me don't know why  
So I just turn up the radio  
Sweet music I'm feeling you

Wanna dance with a big fat smile  
Music is on my side  
I don't want no more tears to dry  
I'm feeling good (so good)  
Dance with a big fat smile  
Music is on my side  
Memories passing by  
And I feel good

Let the music just take me by the hand and guide me  
Take me to a place where there's everything irie  
Don't care about no one just do everything my way  
Emotions just flow like the speed on a highway inside me

Decidí no volver a mirar el pasado  
La vida es tan bella pa vivirla frustrado  
Estoy lleno de energía de alegría positiva  
Después de tanta mierda no te queda otra alternativa

I just escape from the pain and drive into the sound  
Styles and melody lift me up from the ground  
Life is bigger than the bad mind that's pulling me down  
I feel free like a king with no crown

Dance with a big fat smile  
Music is on my side  
I don't want no more tears to dry  
I'm feeling good  
Wanna dance with a big fat smile  
Music is on my side  
Memories passing by  
And I feel good (yeah, yeah)

Can't you see the rain stops falling  
Can't you see the smiling sun  
We salute a brand new morning  
Come salute the bass, salute the drum

And dance with a big fat smile  
Music is on my side  
I don't want no more tears to dry  
I'm feeling good (so good)  
Dance with a big fat smile  
Music is on my side

Memories passing by  
I'm feeling good

(I'm feeling good)
