

Rise And Shine

Culcha Candela

Rise up shine pon the world
fly like a bird become bright and brave just
climb up find what you need
cry out no more just get hype and
rise and shine anywhere that you go brother
rise and shine in anything that you do sister
rise and shine just keep your head up me say
rise and shine and never ever stop
me coming again and me bust fire pon the area
non stop me do bust it we got nuff style fi burry ya
me nah go mono no me a go stereo
make you wanna hear it once again and again so
you guys get crazy when you hear me on your radio
when me bust a bulldozer-tune just like lady saw
things a get big like them never ever been before
cause all of us we can achieve some more just
rise up shine pon the world
fly like a bird become bright and brave just
climb up find what you need
cry out no more just get hype and
rise and shine anywhere that you go brother
rise and shine in anything that you do sister
rise and shine just keep your head up me say
rise and shine and never ever stop
tómate el tiempo sientes el viento?
mira tu estás vivo qué es lo qué estás haciendo
alimenta tu corazón y tu mente con energía positiva de tu gente
parte y ponte a luchar así pase lo qué sea tu eres capaz
es evidente nadie es inocente
lo qué si es verdad es qué toca ser valiente
rise up shine pon the world
fly like a bird become bright and brave just
climb up find what you need
cry out no more just get hype and
rise and shine anywhere that you go brother
rise and shine in anything that you do sister
rise and shine just keep your head up me say
rise and shine and never ever stop
keep on flying when you got the flow
keep on trying when you don't know
there is always more for you
so much to explore
well it don't matter what you do when you do it right
always have to stay tight no time to waste now
for ever try to reach for the far side whether day or night
good never good enough
if you're a farmerman you want to plant the best corn
and all singer want to write the perfect song
if you're a hustle for the real thing and hustle hard
we are humans and we are strong
rise up shine pon the world
fly like a bird become bright and brave just
climb up find what you need
cry out no more just get hype and
rise and shine anywhere that you go brother
rise and shine in anything that you do sister
rise and shine just keep your head up me say

rise and shine and never ever stop
