

Blue Skies

Culture Beat

I believe you can move any mountain
If you want it enough
And I believe truth is stranger than fiction
When it comes down to love
Every picture has a story
Every man a price they say
Every cloud a silver lining
And it's gonna come and save my day

In a word I could call it thunder
In a feeling I'd call it high
It's a miracle - it's a wonder
Like blue skies
And in time I would say forever
In my heart baby it's the same
It's a feeling when we're together
Like blue skies in the rain
Beauty is in the eyes of the lover
When love's bigger than life
And you know when you belong to each other
Something tells you it's right
Every picture has a story
Every man a price they say
Every cloud a silver lining
And it's gonna come and save my day

I believe in you - I believe in me
I believe in blue skies I can see
There's a brighter way - gonna save the day
Gonna take away all the rain
