

## Reasons

## Culture Club

Many lives they come, many lives they go  
Without reason  
In my heart I know I cannot let go  
Without reason

Little children don't you feel so sad  
When you come home feeling lost and bad  
You got a reason, oh you got a reason  
Oh woman, I gave my heart to you  
When I found out what you've been through  
You got a reason, oh you got a reason

Many lives they come, many lives they go  
Without a reason in your heart  
How could you know?  
In my heart I know I cannot let go

Without a reason in my heart  
How could you know?  
(I know)  
When they find you crying sorrows tears  
And it's too late after all these years  
You got a reason, gimme that reason  
It's boys be strong and girls be weak  
But children, careful how you speak  
You got a reason, gimme that reason

Many lives they come, many lives they go  
Without a reason in your heart  
How could you know?  
In my heart I know I cannot let go  
Gotta reason in my heart and don't you know?

I believe in love  
I believe in you baby  
What about love?  
Give it to me, you gotta give me a reason baby

Little children don't you feel so bad  
When you come home feeling lost and sad  
You gotta reason  
Believe it in your heart and it will show
