

# Everything We Wanted

Curren\$y

Riding low smoking, high but I'm focused  
We took everything we wanted before they even noticed  
Riding low smoking, high but I'm focused  
We took everything we wanted before suckers even noticed  
Riding low smoking, high but I'm focused  
We took everything

T-top Chevrolet, jewelry heavyweight  
Do this everyday, this the only way  
It's my job dog, this how I stay paid  
Avoid colliding with niggas, I'm in my own lane  
Surfing the private beach, I'm on own wave  
Smoking killer, staying live while a Max B play  
Andretti [?] chairman  
Silent investment, off-track betting  
Yeah, I stay ahead of them  
We just riding past the spot [?]  
I was showing off my drop, making all the hoes [?]  
By this time I figured I would be too old for this  
But I still live a player's life, expect the coldest shit  
Yeah, yeah

Riding low smoking, high but I'm focused  
We took everything we wanted before suckers even noticed  
Riding low smoking, high but I'm focused  
We took everything we wanted before suckers even noticed  
Riding low smoking, high but I'm focused

Riding low smoking, high but I'm focused  
We took everything we wanted before they even noticed

Riding low smoking, your bitch in here open  
And she tryna tell me shit I got no business knowing  
Don't trip, I ain't gon' fuck  
Other than when we fuck I pretty much ignore her  
She know when we fuck she know why she came  
She know [?] she tryna get some fame  
[?] my name  
Feeling like Frank Lucas, don't tell me we can't do it  
Because we gon' prove it

Riding low smoking, high but I'm focused  
We took everything we wanted before they even noticed
