

In Between Love

Curtis Stigers

In between love and trying to scheme love
Who can tell what we may find
Never thought love, not get caught love
Between the magic in your eyes
And loves like women, it's cool and breezy
Never thought that love could be so easy
In between love and trying to scheme love
And in between love again
In between love and trying to scheme love
Who can tell what we may find
All this time love, I sublime love
To the feelings in my mind
Loves like women, it's cool and breezy
Never thought that love could be so easy
In between love and trying to scheme love
And in between love again
