

Want More Need Less

Curve

I want to know fun and feeling before I die
I don't want to spend time with people who don't like me
I'd rather walk on by
and let them get on, get on, get on with what they're doing
Just let them get on, get on, get on with what they're doing

They'll want it more, they'll need it less
They'll want it more, they'll need it less

I want to be good and gracious with my life
I don't want to see the strangers who surround me
and there's a reason why
They just go on, and on, and on with what they're doing
They just go on, and on, and on with what they're doing

They'll want it more, they'll need it less
They'll want it more, they'll need it less
They'll want it more, they'll need it less
They'll want it more, they'll need it less

They just go on, and on, and on, and on
They just go on, and on, and on, and on
They just go on, and on, and on with what they're doing

I want it more, I need it less
I want it more, I need it less
I want it more, I need it less
I want it more, I need it less

I want it more, I need it less
I want it more, I need it less
I want it more, I need it less
I want it more, I need it less

I want fun and feeling
Let them get on, get on, get on, get on
I want good and gracious
Let them get on, get on, get on, get on
