

## Drug Of The Masses

Cyclone Temple

This is the way to overcome your problems  
The more you use the better you feel  
Talk to the sky when you need an answer  
It relieves all pain and guilt  
Give all you have to put your mind at ease  
One of the millions that blindly follow  
Distorts your sight and makes you believe  
The words you recite control tomorrow

Washing out reality but it's only momentarily  
These are the scriptures mankind has written  
Who's to say heaven's above the sky  
Should you believe because it's printed  
Who's to say that hell is beneath the earth  
Maybe we're already in it  
Time effects man's perspective  
Changes made to what's recorded  
Is this the book that we must follow  
It will change again tomorrow

[Chorus]:

Drug of the Masses  
Drug of the Masses

Rely on it for all your troubles, until it becomes a crutch  
Get on your knees and bow your head  
But does it really change much  
Recite a prayer when it gets rough  
When you're in over your head  
When you pray it's done in vain  
God helps those who help themselves

Washing out reality but it's only momentarily  
These are the scriptures mankind has written  
Who's to say heaven's above the sky  
Should you believe because it's printed  
Who's to say that hell is beneath the earth  
Maybe we're already in it  
Time effects man's perspective  
Changes made to what's recorded  
Is this the book that we must follow  
It will change again tomorrow

[Chorus]

Drug of the Masses  
Drug of the Masses

Is there an afterlife  
Did they return to tell you  
Live your life for the next world  
When tomorrow isn't really promised to you  
What about the time you still have  
The time is now to strive  
Because when you're dead and buried  
Is when you find out that they lied

Who's to say heaven's above the sky  
Should you believe because it's printed  
Who's to say that hell is beneath the earth  
Maybe we're already in it  
Time effects man's perspective  
Changes made to what's recorded  
Is this the book that we must follow  
It will change again tomorrow

[Chorus]

Drug of the Masses  
Drug of the Masses  
Drug of the Masses
