

# Pianos On Fire

CYNE

(Intro: Akin)

West Africa Santa Maria  
Benin bronze art white man from Bahia  
Murder my God whats the big idea  
Truth in hip hop the reason why I'm here  
Yeah While they all say USA help me help me help me help me  
Please

(Verse 1: Akin)

Out of that jungle black rose came up  
To the point where the sunset step your fame up  
Freeze if you can catch a glimpse of the child  
8 years old scolded ran many miles  
Ape man story gory man go wild  
Sweet sixteen dreams I gamble now  
Found hate in souls like slaves on boats  
Fighting paid gringos  
Now look here we go it's time  
It's time to bring back the rhyme  
Breathe  
We gotta take the city under siege let's go

(Verse 2: Akin)

Their hip hop is just zoo  
Full of monkeys  
I run through jungle  
Speak rap kung fu  
Chopping heads off black belt advocate  
Ying Yang Twins pick cotton still imagine it  
Niggas rap, dance snap for the dollar  
Exhibit A,B, C me in Ramallah  
Cause the war is on I gotta choose sides  
Kramer's got the blues like all niggers die  
Said the wars on I gotta choose sides  
Kramer's got the blues like all niggers die  
Y'all do relate  
Still hip hop would do me great  
A song struggle long shuffle ask Eubie Blake  
Peace to Lafayette County, rise above the levee  
Pianos on Fire, get ready
