

# Baby Don't Cry

D-Side

I won't forget you, I'll miss you more all the time  
But I need you let you, know that apart you're still mine, because

With everything I ever have, everything I 'll learn on the way,  
I'll wipe your tears away  
Everything I ever have, everything you'll ever need  
Everything you want me to stay  
You'll still be mine today I'll wipe your tears away

Crying now, won't drown the love out  
I'll wipe your tears away  
You and I don't need a goodbye  
Don't hide  
I'm here tonight so baby don't cry

There's no tomorrow, without you I don't feel the dance  
But I need to follow, my own feet to give us a chance, because

All the dreams I ever have, everything I long for today  
Might take me far away  
All the dreams I ever have, it's not as if I wanna leave  
When every last look that you take  
Just makes me want to stay please wipe your tears away

Crying now, won't drown the love out  
I'll wipe your tears away  
You and I don't need a goodbye  
Don't hide  
I'm here tonight so baby don't cry

It's cold and it's lonely tonight

Because everything I ever have, Everything I'll learn on the way  
I'll wipe your tears away

Crying now, won't drown the love out  
I'll wipe your tears away  
You and I don't need a goodbye  
Don't hide  
I'm here tonight so baby don't cry

Crying now, won't drown the love out  
I'll wipe your tears away  
You and I don't need a goodbye  
Don't hide  
I'm here tonight so baby don't cry
