

If You Get Scared

D'Sound

Has the ghost come knocking
on your bedroom door again
And is every single friend out of town

Are you waking up as
you're supposed to go to sleep
Are you laying awake all night long

Chorus:

And if you get scared
Just you remember my love is blind
If you get scared
I'll come and touch you
I'll come and touch you

Is it so familiar
that you tend to hibernate
and the need of love or hate
is in your heart

I've got so much courage
and courage is the key
let it be the remedy
for you this time

Chorus:

And if you get scared
Just you remember my love is blind
If you get scared
I'll come and touch you
And if you dare
to let it come and take it on
If you get scared
I'll come and touch you

Bridge:

I wish you knew how great you are
You are someone that will go far
Yes, you are...

Chorus:

And if you get scared
Just you remember my love is blind
If you get scared
I'll come and touch you
And if you dare
just let it come and take it on
If you get scared
I'll come and touch you
