

## Live Forever

D'Sound

"I love you" is such a phrase  
What I feel lies in your face  
It is in every smile and frown  
That's what keeps me sane and sound

I wanna stay all night  
Just to hear you breathing  
And every day I've had you  
Is another with meaning

I wanna live forever just because I love you  
I wanna live forever just because I love you

Words and even melodies  
Can't help me explain you this  
Take your hands, your fingertips  
Close your eyes and close your lips
