

# Where My Heart Lies

Da Buzz

Where my heart lies  
Have you tried to bring back a lift at false?  
Or tried to hold up the sun at dawn?

What are you trying to do?  
You should know how I feel about you

If you are my light, like the sun up in the sky, I'll be there  
Where my heart lies  
If you are my light, like a candle in the night, I'll be there  
Where my heart lies

If you are my light, like the sun up in the sky, I'll be there  
Where my heart lies  
If you are my light, like a candle in the night, I'll be there  
(Where my heart lies)  
(Where my heart lies)  
(Where my heart lies)

I never really know what's on your mind  
So maybe I should just turn around  
What are you trying to do?  
Don't you know how I feel about you?

If you are my light, like the sun up in the sky, I'll be there  
Where my heart lies  
If you are my light, like a candle in the night, I'll be there  
Where my heart lies
