

There He Go

DaBaby

(We got London on the track)

Okay

(I'm in London, got my beat from London)

You know I ain't never have shit (Okay)

Now I'm somewhere in a meeting getting my ass kissed

By a white man, 'cause his daughter fuck with my adlibs

I done dropped dick in her friend, I'm like, "My bad sis"

That nigga act like he too good, even for a bad bitch

I'ma buy a Lambo 'fore this album hit the fans, bitch

Tell the valet park my shit at the front

I'ma hit the gas bitch

I just did five shows, three days

Came back with that bag bitch

Pockets holding 45K and a fo'-five, so I sag bitch

If a fat bitch know how to get some money I'll fuck a fat bitch

Got a show coming up in London and got London on the track bitch

I give a fan a high-five at the airport, she did a backflip

I just went platinum and I'm coming back like

I don't think that they know Baby

I don't think that they know Baby

There he go, there he go

There he go, there he go

There he go, there he go

There he go, there he go

There he go

Who said they can fuck with Baby?

Who said they can fuck with Baby?

There he go, there he go

There he go, there he go

There he go, there he go

There he go, there he go

There he go

Man, fuck Baby

That lil' nigga in there

She really selling pussy, she act like she selling swimwear

A couple thousand to ya name, act like a millionaire

But I don't knock your hustle

Get it out the mud, I been there

Man, I'm so tired of niggas talking about who broke

Like we ain't all come from the bottom

We came up, I give 'em hope

And way before a nigga signed and made a rhyme

I was providing for my side

I had em' low and they had 'em high

You shopped with me, you ain't gotta lie

Now a nigga legit, huh

Fifty-thousand just to walk through

And do my one-two on yo bitch, huh

And bougie hoes didn't wanna fuck with me

Now I got em' all on my dick now

Like Lil Baby, fo' pockets all full

The money can't fit now
Man, I pull up, niggas hollering

I don't think that they know Baby
I don't think that they know Baby
There he go, there he go
There he go, there he go
There he go, there he go
There he go, there he go
There he go

Who said they can fuck with Baby?
Who said they can fuck with Baby?
There he go, there he go
There he go, there he go
There he go, there he go
There he go, there he go
There he go

You know I ain't never have shit (Okay)
Now I'm somewhere in a meeting getting my ass kissed
