

The Last Crossing

Dagoba

Blazing ahead moving on
One last ride, one for the road
Shift my gears for the night
Take a few last turns
In memories I will burn

A bloody sand has now run out
Out of time and out of mind
My destiny awaits me, it's calling out
One for the road, one for the road
One last ride

Standing at the edge
Leaving behind all the rest

No second chances
I've got nothing left to lose
You won't forget me
I'll take one last cruise
Run all the lights
At the last crossing before I die
There's time (there's time) for one last ride

Blazing ahead moving on
One last ride, one for the road
My destiny awaits me, it's calling out
One for the road, one for the road
One last ride

Standing at the edge
Leaving behind all the rest

No second chances
I've got nothing left to lose
You won't forget me
I'll take one last cruise
Run all the lights
At the last crossing before I die
There's time (there's time) for one last ride

Run all the lights
Run all the lights
Run all the lights
Run all the lights

No second chances
I've got nothing left to lose
You won't forget me
I'll take one last cruise
Run all the lights
At the last crossing before I die
There's time (there's time) for one last ride
