

# Super Love

Dami Im

Maybe this is all a little crazy  
But I wanna know if you'd come run away with me  
Because you are, are thinking about my love  
Because I, I'm thinking about your love

And maybe it's euphoria that's talking now  
But I wanna breathe you in and never breathe you out  
Because you are, are thinking about my love  
Because I, I'm thinking about your love

We're diamonds in the rough  
The stars are made of us  
Nothing can bring us down down down  
We got that super love

We got that super love  
We got that super love  
Nothing can bring us down down down  
We got that super love

They say what doesn't kill you is supposed to make you strong  
But I wanna die a thousand times inside your arms  
Because you are, are thinking about my love  
Because I, I'm thinking about your love

And maybe you don't know what you got 'til it's gone  
I'm already so far gone on what you got me on  
Because you are, are thinking about my love  
Because I, I'm thinking about your love

We're diamonds in the rough  
The stars are made of us  
Nothing can bring us down down down  
We got that super love

We got that super love  
We got that super love  
Nothing can bring us down down down  
We got that super love

(We got that super love...)

They say we got our heads in the clouds, I don't mind  
So forget about your lows and your highs, you're the sky  
We got that super love  
We got that super love

We got that super love  
We got that super love  
Nothing can bring us down down down  
We got that super love

We got that super love  
We got that super love  
Nothing can bring us down down down  
We got that super love
