

On Top

Dan Croll

Time is feeling hazy, the seasons are slow
I've not long left but it feels so far ago
We said our goodbyes, they play on repeat
With every low, In every hour of need

It's like you're riding next to me
Cause I've been working so hard (So hard)
But I'm on top when I think about you, it's all that I do
When time apart is so long (So long)
But I'm on top when I think about you, it's all that I do

Eyes on the road, tired and alone
Thoughts of you like sign posts leading me home
But every town, is slowing me down
Holding me back and keeping me far astray
But still I'm counting down the days

Cause I've been working so hard (So hard)
But I'm on top when I think about you, it's all that I do
When time apart is so long (So long)
But I'm on top when I think about you, it's all that I do

Cause I've been working so hard
But I'm on top when I think about you, it's all that I do
When time apart is so long
But I'm on top when I think about you, it's all that I do

Cause I've been working so hard (So hard)
But I'm on top when I think about you, it's all that I do
When time apart is so long (So long)
But I'm on top when I think about you, it's all that I do
