## **A Voice for Peace**

**Dan Fogelberg** 

You know that everybody has a voice And how they use it is their own free choice In your glory I will not rejoice If you choose the ways of war If you choose the ways of war

Ashes to ashes and dust to dust My country 'tis of thee, in God we trust But how much longer will He shelter us While we choose the ways of war While the winds of war rage on

Let mine "oh let my small voice" be a voice for peace Oh let mine "oh let my small voice" be a voice for peace Oh let mine "oh let my small voice" be a voice for peace Let it start here with me, Oh let mine be a voice for peace

The good book tells us thou shalt not kill The truth came shining and it's shining still But how much blood upon this earth must spill Before we lay our weapons down Let us lay our weapons down

Let mine "oh let my small voice" be a voice for peace Oh let mine "oh let my small voice" be a voice for peace Oh let mine "oh let my small voice" be a voice for peace Let it start here with me, Oh let mine be a voice for peace

And in the face of the beast, oh let mine be a voice Until the breaths in me cease, oh let mine be a voice for peace

Let mine "oh let my small voice" be a voice for peace Oh let mine "oh let my small voice" be a voice for peace Oh let mine "oh let my small voice" be a voice for peace Let it start here with me, Oh let mine be a voice for peace

Raise your voice up, raise your voice up Raise your voice up and sing for the promise
