

Here In The Kitchen

Dan Reeder

I just love
To stand by the window
Here in the kitchen
Watch it rain

There is no
Rhyme or reason
And there is nothing to explain
When I stand by the window
Here in the kitchen
Watch it rain

And I don't care if the phone should ring
And I don't care if the doorbell ring
I will stand here by the window
Here in the kitchen
Watch it rain
