

No One Will Laugh

Dan Reeder

Oh you can make a mess of the simplest song
And no one will laugh
No no one will laugh

You can make a mess of the simplest song
And no one will laugh at you

You can make a mess of the simplest song
And no one will laugh
No no one will laugh

You can make a mess of the simplest song
And no one will laugh at you
And if they do
They can blow me, too
'Cause no one should laugh at you

You can make a mess of the simplest song
And no one will laugh
No no one will laugh

You can make a mess of the simplest song
And no one will laugh at you

Oh you can make a mess of the simplest song
And no one will laugh
No no one will laugh

You can make a mess of the simplest song
And no one will laugh at you
