

# Candle In the Rain

Dan Seals

Girl, you are a bird that flies away  
As I'm reaching out to take you in my hand  
At first, I believe your gonna stay  
And I think I under stand

You have shown me all your colors  
Long enough to feel the pain  
Then you leave me helpless  
Like a candle n the rain

Girl, you are a wind that's blowing free  
And you leave the dust of wanting in my eyes  
Faith, I thought you were here for me  
Just to clear my cloudy skies

You are moving here within me  
long enough to feel the pain  
Then you leave me stranded  
Like a candle in the rain

I don't think I will ever heal  
From the scars you left on me  
How can one hold on so long  
And let go so easily

You showed me all your colors  
Long enough to feel the pain  
Then you leave me helpless  
Like a candle in the rain
