

## Certain Circles

Dan Seals

Wheels are turnin' on the interstate  
Clock is tickin' on the wall  
Another day spins away on this blue boy  
So many faces on a crowded street

I feel invisible sometimes  
I want to be surrounded by the ones who fill my life  
With sunshine

In certain circles I can do no wrong

There's something special bout the ground I walk on  
Those uncertainties they're all gone in certain circles  
In certain circles I'm a shining star  
And we're all connected at the heart  
It all comes round to all the love we are  
In certain circles  
In certain circles

Summer's endin' geese are flying south  
Soon we'll be skatin' on the pond  
It's certain spring will come the ice is gone  
Sweet compassion I see in your eyes  
When you ask about my day  
And holdin' hands around the table sayin' grace  
Everything's in place

In certain circles I can do no wrong...

Round and round and round and round  
In certain circles I can do no wrong  
Round and round and round and round  
There's something special bout the ground I walk on  
In certain circles I'm a shining star  
And we're all connected at the heart  
It all comes round to all the love we are  
In certain circles  
In certain circles  
In certain circles  
Round and round and round and round
