

Make It Home

Dan Seals

Well, we never found the cattle
But we saw where they'd been
So I guess they'll have
To make it on their own

And the snow it just keeps fallin'
Like it's never gonna end
So Red I guess
We better move along

Make it home, make it home
She'll have supper on the table
And a fire burnin' warm by the bed
Make it home, make it home
And I'll put you in your stable
You know that I depend upon you, Red
Make it home

Well, I thought I knew this valley
I used to know the way
But the snow has caused it
All to look the same

Can you see where you're goin'
Cause I can't see a thing
But I won't let go
My hands around your mane

Make it home, make it home
She'll have supper on the table
And a fire burnin' warm by the bed
Make it home, make it home
And I'll put you in your stable
You know that I depend upon you, Red
Make it home

Come on, Red, get up
This ain't no time to sleep
Got to keep on movin'
Or they'll find us in the Spring

Well, I think I smell the wood smoke
And I think I see a light
And I think I hear her callin' in the wind

And it's just a little farther
And everything will be alright
Got a feelin' that our journey's 'bout to end

Make it home, make it home
She'll have supper on the table
And a fire burnin' warm by the bed
Make it home, make it home
And I'll put you in your stable
You know that I depend upon you, Red
Make it home

Make it home
